

OPEN PRACTICE & DEVELOPMENT DAYS

Testing Days are designed to give drivers plenty of track time in a structured practice environment. Depending on the event, the day may include both **Open Testing** and a **Driver Development Day**.

Standalone Open Practice Days

On a standalone Testing Day, drivers may register for either the **Morning Session** or **Afternoon Session**.

Morning Session

- **Maximum Capacity:** 42 drivers
- **Check-In:** 7:45 AM–8:15 AM
- **On-Track Sessions:** 9:00 AM–12:00 PM

All drivers should be fully checked in by **8:15 AM**. Drivers who arrive after check-in closes risk missing their first on-track session.

Afternoon Session

- **Maximum Capacity:** 56 drivers
- **Check-In:** 11:45 AM–12:15 PM
- **On-Track Sessions:** 1:00 PM–4:30 PM

All drivers should be fully checked in by **12:15 PM**.

Practice Groups

Drivers will be assigned to a practice group before the event. Depending on attendance, there may be up to **four groups (Groups 1–4)**.

Drivers will receive an **email confirmation before the event** with their assigned group and any additional event information.

Depending on attendance, practice sessions may combine drivers from different weight categories rather than separating each weight class into its own session.

Optional Practice Race

Drivers will also have the opportunity to participate in an **optional Practice Race for an additional charge**.

The Practice Race includes:

- **5-minute qualifying session**
- **8-minute race**

Practice Races are designed to give drivers additional race experience in a non-championship environment.

Depending on participation, drivers from different weight categories may be combined into the same Practice Race rather than running separate races for each class.

When participation allows, drivers may also be divided into **Novice and Experienced groups** to provide a more comfortable and appropriate racing environment based on each driver's experience level.

Development Days

When a **Driver Development Day** is scheduled, it will take the place of the Morning Open Testing Session.

On these dates, **Open Testing will only be available during the Afternoon Session**, with a maximum of **56 Open Testing spots available**.

Please review the event-specific schedule below before attending, as schedules may vary depending on whether the event is a standalone Testing Day or includes a Driver Development Day.
